LING508 Unit 2 Week 2 Milestone: UML Class Diagrams

Project: "Trova Ricetta" – Italian Recipe Finder

### Use Case 1

User enters a meal category and list of ingredients. The application returns matching Italian recipes.

E.g.

*meal type (dropdown) - antipasto, primo, secondo, **dolce***

*ingredients (checkboxlist) - ova, farina, latte*

*ricette – Torta Paradiso, Ciambellone etc.*

### Use Case 2

Recipe steps highlight verb forms.
